

FAIRMOUNT COVID-19 PREVENTION AND PROTECTION UPDATE

September 4, 2020

Dedicated to Faith, Family & Community

SIXTH ROUND OF HEALTH CARE UNIVERSAL TESTING

On September 2, around 200 Fairmount Health Care residents and team members were tested for COVID-19. The results are still pending.

FINAL RESULTS FROM LAST WEEK'S HEALTH CARE UNIVERSAL TESTING

The final results from last week's COVID-19 testing in Health Care are as follows:

- 200 tested negative
- 1 tested positive

The positive result came from an occasional (less hours than part-time) team member who last worked on August 23. That team member is quarantining at home before returning to work. Fairmount does not have any known COVID-19 positive residents currently on campus other than those patients admitted from area hospitals into the Dogwood isolation hallway.

HEALTH CARE & PERSONAL CARE VIRTUAL FAMILY MEETING

Fairmount will hold a virtual family meeting for our Health Care and Personal Care residents' families on the evening of September 22. This will be a time for loved ones to connect, ask questions and share ideas about how to stay connected. More information will be sent to Health Care and Personal Care residents' families in the near future.

UPCOMING RESIDENT TOWN HALL MEETINGS

During the week of September 7, Fairmount will hold seven Residential Living Town Hall Meetings across campus for our apartment and cottage residents. Each meeting will be facilitated by Jerry D. Lile, President/CEO and Kent Richard, Vice President of Operations. To provide safe distances, the meetings will be limited in number. Therefore, residents must register in advance in order to attend. Masks or face coverings are mandatory.

PERSONAL CARE TO ENTER PHASE 2 OF REOPENING

Wheat Ridge Personal Care and Farm Crest Personal Care are slated to move into Phase 2 of the reopening process in the next week or two. The primary changes from Phase 1 to Phase 2 includes increasing the maximum group size for activities to ten and initiating scheduled in-person outdoor visitation. These visits must be scheduled in advance and will be supervised. Safe distances must be adhered to and masks are mandatory.

PRACTICE SAFETY THIS LABOR DAY WEEKEND

As our team members and residents travel or attend gatherings this Labor Day weekend, please practice caution and safety. Wear your mask appropriately, keep safe distances when in small gatherings, avoid large gatherings altogether, practice good hand hygiene, and report any interactions with a known COVID-19 positive person. We serve individuals who are very susceptible to the virus. Thank you for all your efforts to help keep our residents and team members safe.

DOGWOOD HALLWAY

We admitted five COVID-19 positive patients from area hospitals this week into our Dogwood isolation hallway. To date, we have treated 53 people in the Dogwood Hallway.
