October 8, 2021

Dedicated to Faith, Family & Community

NEW COVID POSITIVE CASES

Team Members: 3
Health Care Residents: 1
Personal Care Residents: 0
Residential Living: 4

VISITATION CLOSED HEALTH CARE & REHAB

Visitation to Valley View and Mountain View in Health Care, and Cedar and Dogwood Hallways in Rehab is suspended at the present time.

We continue to experience new cases of COVID among our team members and residents. This week, three team members tested positive. They will quarantine before returning to Fairmount.

In Health Care, one resident tested positive for COVID this week. All active COVID positive residents are being moved to the Aspen and Birch hallways to prevent infection to other residents. Staff in those hallways are dedicated to those areas exclusively to avoid further transmission. Infection prevention measures are reviewed daily with our team members.

We learned that four Residential Living residents tested positive for COVID since our last communication.

Sadly, one Residential Living resident and two Health Care residents passed away due to complications related to COVID this week.
